

**International African Vaccinology Conference  
Lagoon Beach Hotel, Cape Town  
9-11 November 2012**

Dear Colleague

The Vaccines for Africa Initiative (VACFA), University of Cape Town, together with the National Institute for Communicable Diseases (NICD/NHLS) hereby request that you announce our upcoming International African Vaccinology Conference (flyer, registration application attached) to the community at your institution, especially the faculty/department of health sciences, paediatrics, public health and laboratory sciences (microbiology and virology).

This is a landmark event, being the first vaccinology conference in Africa, by Africans, about African immunization and vaccine preventable diseases issues, involving the international vaccinology community, including academics and program organizers.

**Be a part of the rendezvous: A vaccine conference in Africa, for Africa, about Africa.**
